

IRONVINE
CAPITAL PARTNERS, LLC

Proxy Voting Policy

Consistent with its client Investment Management Agreements, Ironvine Capital Partners, LLC (the “Firm”) retains the right and obligation to vote proxy statements for its clients. As such, the Firm has engaged Broadridge Financial Solutions Inc., through its software product “ProxyEdge,” as an electronic system to organize, process, and document proxy votes for securities owned by clients of the Firm.

The ProxyEdge system is integrated with the Firm’s master accounts at Charles Schwab & Co. As such any new client accounts opened under the existing master account umbrellas will automatically be aggregated into Ironvine’s ProxyEdge portal. All accounts managed by the Firm not custodied at Charles Schwab have been mapped into the Ironvine ProxyEdge database.

Any future accounts not automatically aggregated into the Firm’s ProxyEdge portal will be mapped in manually as part of the account opening process.

The Firm generally votes in favor of routine corporate housekeeping proposals including the election of directors, unless the Firm deems such proposals to be inconsistent with strong corporate governance principles. For all other proposals the Firm will determine whether the proposal is in the best interest of clients and will weigh the facts at its disposal in coming to such a conclusion.

If a record of historical voting records is required, please send a request to the following address:
